Designed for applications above -10°F.

Limitations: Solvent in product attacks polystyrene insulation. Avoid use where solvent odors may taint food or other susceptible products.

Coverage

30 to 50 sq. ft./can depending on porosity and texture of surface.

Surface Preparation

Surfaces must be dry and free from dust, dirt, grease, oil or other foreign matter.

Application

Shake can vigorously until ball rattles freely. Apply a uniform film to a clean, dry surface. Allow adhesive to tack up for 3 minutes before applying **Henry Blueskin® Self-Adhesive Membrane**. Apply a firm pressure to the membrane to ensure firm contact with the substrate. After spraying, turn can upside down, point nozzle into refuse can or at paper and push spray head for about 2 seconds to clear valve. For clean-up or if valve clogs, remove from can and clean in paint thinner or mineral spirits.

Precautions
